

Some information about drought-related bans and closures can be found on specific Web pages for DNR properties. However, because conditions can change quickly, we recommend checking with property staff, as well as the Department of Homeland Security's Website (<http://www.in.gov/dhs/getprepared.htm>), for the latest updates.

LARE Project Reports

All reports produced for projects funded by the Lake and River Enhancement Program are available online using the search function below. These reports are provided solely as an information resource to interested parties. They are reproduced as they were developed by the sponsoring entities and agencies, individuals or firms responsible for them. No endorsement of any products, procedures, or recommendations is made by the State of Indiana, Department of Natural Resources, Division of Fish and Wildlife or the Lake and River Enhancement Program.

If there is a report for a water body you do not see, please contact the LARE staff via e-mail at lare@dnr.IN.gov and note the information you are seeking.

Please note: All reports are in pdf format and require Adobe Acrobat in order to view them. Some reports may be large and may take time to download onto your computer. If you do not have Adobe Acrobat, you can download a free version of [Adobe Reader](#).

How to Use this Search Page:

- To view a list of all available reports, simply click the search button and all reports will display in the results.
- You can narrow your search by choosing one or more search criteria.
- To select multiple search criteria, hold down the "Ctrl" key and click on multiple search criteria.
- If you have problems viewing this page, [click this link to find the recommended browsers](#).
